

# Justin McIntyre

I am an ambitious man from New Brunswick, Canada, looking to debut in the Web-Development industry.

I'm a self-taught coder and a lifelong learner. You can check out my web dev portfolio at ( [justinmcintyre.com](http://justinmcintyre.com) )

I believe my experience as a lifeguard and as a remote intern, will be an asset in this position because I've learned how to operate effectively with limited supervision.
